

HEALTH & FAITH FORUM

BIOETHICS AND WHOLENESS GRAND ROUNDS

Exploring issues in ethics and wholeness across the disciplines.

What Might Climate Change Mean for American Medical Care?

Andrew Jameton, PhD

Professor, health promotion, social and behavioral sciences
Department of preventative and societal medicine
University of Nebraska Medical Center
Omaha, Nebraska

Course Objectives:

By the completion of this presentation, the participant will be able to:

1. Describe some possible effects of climate change, or its mitigation, on the capacity of the U.S. health care system to deliver its services.
2. Describe some possible effects of climate change, or its mitigation, on the needs and populations served by U.S. health care.
3. Discuss some ethical tensions health practitioners may experience in educating patients and preparing themselves for climate-related changes.

Wednesday, May 28, 2008

Wong Kerlee International Conference Center

12:00 noon to 1:00 p.m.
